6. Road/Stream Crossings
7. Temp loggers removed - need new ones for spring
8. Partner updates/issues
9. Other
10. Schedule Spring meeting

Future Black River Watershed Projects to Consider for River Habitat Crew – Cwalinski July 2017

1. Continued sand trap maintenance with PRD crews
 - a. East Branch Black Rv
 - b. Tin Shanty?
 - c. Canada Creek state land North and South
 - i. Notes – all need monitored and planned in advance
2. Re-opening old LWD permits (Beaver Dam Club, Springs, GFC) and doing maintenance
 - a. Notes – Forest Treatment Proposals, DEQ permits, costs
3. New LWD project from Sids Drive (Blue Lake powerline) downstream to beginning of Gaylord Fishing Club
 - a. Inspected in float by Bruot and Cwalinski
 - b. Area flat and relatively devoid of in-stream wood
 - c. Dominant gravel and cobble base
 - d. Trees relatively sparse
4. New LWD project for Saunders Dam reach
 - a. Could have some areas where wood is rearranged
 - b. Access good at Saunders site, poor at other sites
 - c. Concerns on work being flooded out by beavers
 - d. General lack of fishing pressure in this area
 - e. Needs scouted
5. New LWD project for Tin Shanty Bridge both upstream and downstream
 - a. Reach upstream of Tin Shanty Bridge needs wood, but riparian wood is lacking (tag alder brush bundles?)
 - b. Heavily fished reach, good exposure
 - c. Needs scouted
6. New LWD project for East Branch Black River Highbanks Reaches
 - a. Relatively small reach
7. New LWD project for Black River downstream 1-2 miles from Kings Bridge in Black River Ranch
 - a. Work needed in this stretch for bank stabilization and fish cover
 - b. Need willing landowners and trees hauled in
